General Information

The C. Eugene Bennett Department of Chemistry at West Virginia University offers three undergraduate degree programs - a Bachelor of Science (B. S.) degree in chemistry, a Bachelor of Arts (B. A.) degree in chemistry, and a Bachelor of Arts (B. A.) degree in biochemistry with a chemistry emphasis. In the fall 2013 semester, however, the Bachelor of Arts (B.A.) degree in biochemistry with a chemistry emphasis will be phased out with the implementation of an Intercollegiate B.S. Biochemistry degree, which has been jointly developed by the Eberly College of Arts and Sciences and the Davis College of Agriculture, Natural Resources, and Design. Student who entered WVU in the fall 2005 semester must fulfill the academic requirements for the General Education Curriculum (GEC).

The academic rank of an undergraduate student, as indicated below, is determined by the number of credit hours completed.

- Freshman classification: 1-28 hours inclusive
- Sophomore classification: 29-58 hours inclusive
- Junior classification: 59-88 hours inclusive
- Senior classification: 89 or more semester hours
